## Learning outcomes & description

### DESCRIPTION

This module aims to provide learners with the knowledge and skills necessary for the registration and lodging of an application for international protection in line with the EU asylum acquis and Fundamental rights, while taking into account vulnerabilities and special needs of persons. It also develops learners' knowledge and skills to provide the relevant information to applicants for international protection during the registration and lodging.

### LEARNING OUTCOMES

At the end of this module, the learner will be able to:

#### **Knowledge**

1. Identify the key steps of registering and lodging applications for international protection according to the EU legal framework and key fundamental rights;
2. Identify an appropriate approach to gathering relevant information from applicants for international protection during registration and lodging;
3. Identify the relevant information to be provided to applicants for international protection during registration and lodging, and the appropriate communication techniques;
4. Identify appropriate approaches to consider special needs of applicants during registration and lodging.

### **DELIVERY METHOD**

**This module can be delivered fully online or face-to-face.**

### **ASSESSMENT STRATEGY**

**Irrespective of the learning strategy chosen (online or F2F), there will be one assessment at the end of the module consisting of four tasks. The assessment is partially based on hypothetical case scenarios of a registration officer tasked with registering applicants for international protection coming from fictitious countries. The tasks will be based on different components in an applicant's case file, including parts of the applicant's statement and/or supporting documents. The assessment is based on**

multiple-choice questions which will be presented in different forms depending on the task (using the possibility to select one out of four possible answers, selecting the appropriate answer to questions out a drop-down menus and exercises in which the learner is asked to fill in the blanks with expressions provided).
