

Sources

In accordance with the EUAA COI Report Methodology, the content of this report relies on a range of different open-source material, as well as interviews and email communication with oral sources. Information was mainly gathered from public reports by international organisations; reports produced by various bodies of the United Nations; civil society, advocacy groups, and NGOs; COI reports of national asylum administrations; media, specialised academic publications, and think tanks.

In addition to publicly available sources, interviews with experts were conducted to supplement information gaps and/or to further corroborate specific findings. Some experts interviewed by the EUAA preferred to remain anonymous for security reasons. Experts were selected and assessed according to their expertise, reputability, and current knowledge of the situation on the ground. All the public and oral sources referenced in this report are cited and described in [Annex 1: Bibliography](#).
