

## 2.3.5. Civilian casualties

According to SNHR, the civilian death toll in Hama governorate was 10 in October 2025, 15 in November, 14 in December, 9 in January as well as February 2026, 8 in March, 12 in April and 8 in May 2026.<sup>625</sup> During this period most civilian fatalities were attributed to unidentified actors.<sup>626</sup> In November and December 2025 one fatality in each month was attributed to remnants of the Assad regime.<sup>627</sup> In April 2026, regime remnants were also mentioned as actors, but the number of victims was not specified.<sup>628</sup> An analysis of civilian fatality data from Hama since December 2024 shows a slight downward trend, with the notable exception of March 2025, when escalating violence in the Syrian coastal region resulted in more than 150 recorded deaths in Hama.<sup>629</sup>
